01:43:19 Leroy Nunery II: Hit me up on LinkedIn!
01:46:08 Denise Turner: @Ana - Congratulations!
01:56:47 Susan Paul: Yes! We need outcomes over optics!
01:58:37 Roberta Green: What was the name of the book
01:58:46 Carole Copeland Thomas She/Her/Hers: A Guidebook to ...Slave Songs co-authored by Dr. Lorna Andrade.
02:03:27 Carole Copeland Thomas She/Her/Hers: My home church had a CREDIT UNION when my grandfather was pastoring it in the 1950s!!!
02:03:30 Garrick Prayogg CDN Liverpool: BHM need to move to 365 days every day a educational day learning never stop. still not integrated in education and society.
02:03:55 Cassie Quinlan: Connect all classes interperssonally!!!
02:04:11 mary joyner: BH should be an curriculum in all schools
02:04:18 Michele Greene: The full title is "A Guidebook for Young people Studying US Slave Songs."
02:04:21 Leona Martin: Yes!!! Credit Unions in our churches is critical. My church has one and we love it!
02:04:42 Cassie Quinlan: I have to go visit Martha's Vinyard.....
02:05:35 Gloria Love: Yes, we need Black History month but remember, we are black all year. Can we add at least another month or more?
02:05:36 Leroy Nunery II: And credit unions, fraternal organizations, churches, etc. were at the epicenter of economic stability and wealth transfer.
02:05:38 Ana De Pina: I taught US History and the Daughters of the Confederacy redacted the history books and use their narrative to explain US History that is inaccurate. How do we undo this injustice? Also many school districts do not have any Black Teachers and therefore do nothing to celebrate Black History Month because usually it is Black Teachers who work for free outside of their actual job descriptions to celebrate Black History with an actual program.
02:07:38 Carole Copeland Thomas She/Her/Hers: The Association For The Study of African American Life and History. www.asalh.org. Started in 1915 by Dr. Carter G. Woodson
02:09:04 Carole Copeland Thomas She/Her/Hers: Caste by Isabel Wilkerson
02:09:37 Dr. Barbara Collins: CASTE By Isabell Wilkerson is an

excellent book to read.

02:11:11 Carole Copeland Thomas She/Her/Hers: Race is actually a social construct!!!!

02:11:42 Carole Copeland Thomas She/Her/Hers: Please put your QUESTIONS in the Chat.

02:12:47 Otis Graham: DRAPTOMANIA is what we have conditioned to.

02:12:49 Otis Graham: MWUA1

02:12:52 Gloria Love: They have the knowledge but are they willing to act on that knowledge? Do they really care?

02:15:05 Carole Copeland Thomas She/Her/Hers: Dr. Andrade, how has COVID impacted communities of color? Is the situation changing?

02:15:39 Dr. Barbara Collins: Dr. Andrade TRUE!!

02:16:07 Cassie Quinlan: Forgive me for adding something, but we also learn about ourselves when we see other options, and get feedback. We do need to honor our own histories, I'm Irish female, that impacted my worldviews and my style. But by learning from other cultures, and sometimes getting feedback, I learn and must communicate. I cannot take automatically as total truth, maybe just a grain of truth for me to use. So we LEARN when other cultures comment or react – not their total interpretation. Our task is to hold our value, history, negative and positive – not buy into other's interpretation, that may just reflect their ignorance. But gathering like this, centering Black American history, one that celebrates multiple voices.

02:16:11 Matt Turner: When we speak of unified strategies I believe we have plenty of knowledge, education, etc. from a more fundamental standpoint, who represents “black people”? Without that fundamental representation it is very difficult to generate momentum towards any cause. How do we solve that initial starting point..

02:17:01 Frank Barnes: Under the system of racism white supremacy why do we as black people continue to assimilate to our oppressor? Self determination is the key to break the chains of oppression

02:17:01 Dr. Barbara Collins: What are your thoughts about how the media impacts the negative images of our Black youth?

02:17:35 Elizabeth Alston: How do we minimize the critics of the critical race theory?

02:18:01 JAMES WROTEN: Who controls or has the most input on what books are put into the educational system.

02:18:21 Otis Graham: We haven't mentally healed since our collective kidnap.

02:18:35 Ronald Saunders: Human beings are the most similar of all species. Every human being on the planet earth is an African under the skin. Ronald Brooks Saunders, McKenzie Branch ASALH, Pittsburgh Pa.

02:18:42 Alvin Johnson: How should we attempt to promote black history in the face of the attacks on critical race teaching?

02:18:45 Matt Turner: May I follow up with commentary?

02:19:19 Denise Turner: May I contact you and pass this info to the Greater Boston Section, National Council of Negro Women of which I'm a member and pass Executive Member @ Thelma

02:19:44 Dave Lemard: I do believe that Black History Month should

be used as a vehicle to push our wealth management...and that wealth speaks to health, financial, educational and social

02:20:21 Melvin Giles: Please provide suggestions for creating a Community/Black People-Friendly & Welcoming co-ownership of urban community gardens & urban farms, as a way of reclaiming and reconciling the land & communities that was destroyed due to racist highway policies and on-going gentrifying practices. What are good models of co-op investments for community members? Thank you. Peace

02:21:23 Carole Copeland Thomas She/Her/Hers: Collaboration NOT Competition!!

02:23:13 Garrick Prayogg CDN Liverpool: young people must work with older seniors no generation gap

02:23:43 Susan Paul: So serious!

02:24:19 Matt Turner: I am not sure if political structure or free market financial representation is the primary driver but blacks seem to globally miss the mark collectively. But the one thing the "black" representation does not have is a political party, also our national organizations are all non for profit and don't represent a dominant financial stance in political party funding or direct net worth impact to blacks.

02:24:20 Cassie Quinlan: Yes, Dr. Lorna, and also teach that just because laws were changed, does not mean that all white people paid more attention to those who had been abused. It takes getting out of your separate silo, to see other lifestyles, and learn all the good within it, and how much was missed by not paying attention!

02:24:25 Lic. Tanya Miller, MMFT she/her/hers: There is a lot of growth that is seen for young people on the entrepreneur front, social media has created a platform for many new contributors to dialogue on the black diaspora condition that is seen 24/7. There appears to be a great generational gap that is preventing the linking of the work to aid in the growth of the entire community. We have to bridge this gap and acknowledge the new ways folks are addressing the questions we are raising here today.

02:24:46 Michael Halperin: Does anyone want to comment the role of allyship in this vision?

02:25:33 Ronald Saunders: The psychic scars from the Trans-Atlantic Slave Trade and the Trans-Indian Ocean or East African Slave Trade are pervasive in our Black polulaitons to this very day throughout the African Diaspora. Ronald B. Saunders, McKenzie Branch ASALH, Pittsburgh Pa.

02:25:57 Cassie Quinlan: Tell The Truth. Dassit.

02:26:40 Jen C: And just call it history - never use the term "critical race theory" to trigger those that it triggers.

02:26:45 Cassie Quinlan: Allies - offer support, company, feedback, other areas of expertise - and all can grow together!

02:27:18 Bonnie Johnson: We as a people are present and the more allies that can invite their friends, family and colleagues into these conversations, the better!

02:27:50 Ayanna Farrell: 🙏

02:27:57 Susan Paul: 🙏🙏🙏 Thank you, all!
