
Believe

By Marques Benton

There are several crucial steps to achieving greatness.

First one must set a goal for greatness.

Then one must plot a course for greatness.

Being great requires a true understanding of your strengths, skills, and weaknesses.

Being great is being active and efficient, resourceful and proficient.

One can be great if he or she truly understands, acknowledges and believes that the goals in his or her heart and mind are more than simply dreams.

To be great is to be.

Just as to be alive is to breathe...believe!

When your alive you never worry about your next breath.

You just breathe.

There's is no doubt, there's now fear, there' no worries

It's automatic just believe.

Be who you were intended to be

See what you were meant to see - Achieve!

Don't look back

Believe, Believe, Believe

Believe in yourself and there's nothing you can't do!
